Handbook of Professional Health Care Boards in Kentucky

Kentucky
Hospital
Association

Center for Health Care Professions

March 2008

Dear KHA Member:

This report, ***The 2008 Handbook of Professional Health Care Boards in Kentucky***, was compiled by KHA's Center for Health Care Professions. It provides an overview of the Kentucky health care professional regulatory boards and the continuing education requirements for health care professionals. For each board you will find the address, contact person, Practice Act and Rule Chapter, continuing education requirements, meeting dates, criteria for membership, a list of members, email and web site addresses.

This report grows out of our advocacy work. KHA monitors key boards and interacts with them to enhance your ability to effectively deliver health care services. There will be times when you need to interact with them as well.

The educational requirements are effective as of the date listed. You should contact the appropriate regulatory board to ensure that the information has not changed subsequent to this publication.

For more information contact **Kim Dees**, Executive Director of KHA's Center for Health Care Professions, at (502) 426-6220 or (800) 945-4542 or email at kdees@kyha.com.

Sincerely,

Michael T. Rust, FACHE
President

Practice Act: KRS Chapter 211

Rule Chapter: 902 KAR 105

Continuing Education Requirements: 902 KAR 105:020, Section 5

***Radiation Operator Certification does not have a Board.** They are in the Cabinet for Health and Family Services, Department for Public Health, Radiation Control Branch.

Who Must Be Certified:

All diagnostic x-ray machine operators employed by or working for (in) the Professions of medicine, chiropractic and podiatry.

Methods To Obtain Certification:

General Certification - Those individuals that have graduated from a two (2) year Radiography Program approved by the state and hold a valid certificate from the American Registry of Radiologic Technologists (ARRT).

General Certificate - Issued to those individuals who have completed the above course and hold a valid certificate from the American Registry of Radiologic Technologists (ARRT).

Temporary Certificate - Issued to those who have completed the above course and are awaiting examination with the ARRT.

Limited Certification - Those individuals holding a Limited Certificate cannot be employed as a radiation operator at a facility which utilizes contrast media (i.e. gall bladder, GI series, IVP, etc.).

Institutional Program - A limited radiography program approved by the state at a Post Secondary Institution.

Independent Study Course - A limited radiography correspondence course is available from the Radiation Health & Toxic Agents Branch. This course is designed for an individual who is working in a doctor's office or medical clinic where limited radiography (non-contrast) procedures are performed. This course cannot exceed one (1) year.
